

Doteasy KB

Can I use Doteasy web hosting services on my foreign (country-level) domain name?

Of course! As long as you can change the name servers on your country-level domain, you should be able to host it at Doteasy.

To host your country-level domain with us, you'll need to sign up using the "Use My Own Domain Name (Transfer your Hosting to Doteasy)" option on our sign up form:
