Doteasy KB

Can I renew my domain even though it's not set to expire for several months?

Yes, you can certainly renew your domain at any time prior to the domain expiry date. Your renewal term will just be added on to the existing term and you won't lose any time on your registration. We actually recommend you to renew your domain well before it expires to ensure there is enough time to process your renewal.

You can renew your domain with Doteasy by logging into Member Zone, and clicking on the "Renew Domain" or the "Transfer Domain to Doteasy" link under the "Domain Settings" section. If you're logging into your Master Account, you will need to click on the domain name first before you can see this option.

Once you're in, you can then follow the on-screen instructions to complete the renewal.
