

## **Doteasy KB**

### **I have more than one Doteasy hosting account, is there an easier way I can manage all my accounts?**

If you have more than one account with Doteasy, you can group them under a Group Manager account for easier managing.

You can use the Group Them function in your Member Zone to setup your Group Manager account.

Using your Group Manager account, you can easily submit your account renewal and upgrade requests via one control panel login.
