How do I configure Outlook Express?

You can follow these steps:
 1. Start your Outlook Express software. Click 'Tools' and select 'Accounts'.
2. On the Internet Accounts page, select the Mail tab, click 'Add' and then select 'Mail'.
3. On the Your Name page, enter the email sender's name as the Display name and click 'Next'.
4. On the Internet E-mail Address page, enter the email sender's email address as the E-mail address and click 'Next'.
5. On the E-mail Server Names page, select POP3 as your incoming server type and enter the incoming and outgoing mail servers and then click 'Next' to continue.
 My incoming mail server is a: POP3 server
Incoming mail server (POP3):   mail.yourdomain.com
Outgoing mail server (SMTP):   provided by your ISP
6. On the Internet Mail Logon screen, enter userID@yourdomain.com as your Account name and your email account password and then click 'Next'. You may check 'Remember password' but DO NOT check 'Log on using Secure Password Authentication (SPA)'.
