Doteasy KB

How do I add the Doteasy Hosted WebForm to my account?

The Doteasy Hosted WebForm is a free drag-and-drop email form builder. The Doteasy Hosted WebForm is available to all Doteasy web hosting members. To add the Doteasy Hosted WebForm:
1. Sign into your Member Zone at https://member.doteasy.com.
2. Click on the Add Hosted WebForm (Free!) link.
3. Select the desired WebForm plan. When you are ready, click on the Next Step button.
4. Confirm the activation request by clicking on the Submit Request button.
5. Activate the Doteasy Hosted WebForm via the Activate Hosted WebForm Now! link.
6. Complete the Create a WebForm Account form.
Once your Doteasy Hosted WebForm has been activated, you will be redirected to your WebForm admin area.
You can also login to your WebForm admin area via the URL http://apps.yourdomain.com/webform.
