Doteasy KB

Viewing your disk space usage

1. Click the Disk Space Usage icon under Files.

2. This page shows you where disk space usage is distributed within your account's home directory. It can be useful when you need ot know what is causing you to reach a disk space quota.
3. The Disk Usage Summary section shows the first level of subdirectories in your home directory. Below is a breakdown of the subdirectories that is more in depth.
