How can I check my domain's WHOIS record?

You can check your domain's WHOIS record by doing the following:

1. Sign into Member Zone.
2. Click the "View WHOIS Record" link that's in the "Domain Settings" section. If you're logging into your Master Account, you will need to click on the domain name first before you can see this option.
3. A new page will appear with your WHOIS Record.
