How to set comment settings

The Gallery gives you the option to enable/disable viewer comments. Comment control is on a per-album basis. By default, commenting is disabled for all albums.

To change the comment settings for an album, log into your Gallery admin panel and:

1. Click on the "Album" tab in the top toolbar.
2. Select the album to which you wish to change the comment settings.
3. Click on "Album Setting". This will open the "Album Setting" window.
4. Click on the "Photo Comment Settings" tab.
5. Select the desired setting.
6. When ready, click on "Save".
