Photo Download Permissions

Gallery gives you the option to allow your visitors to download your original photo from your photo album. This download functionality is on a per-album basis and is disabled by default.

To allow download of photos, log into your Gallery admin panel and,

1. Click on the "Album" tab in the top toolbar.
2. Select the album to which you wish to change the permalink settings.
3. Click on the "Edit Content" button on the "Photo Setting" toolbar on the bottom of the photo preview panel. This will open the "Edit Album Photos Settings" window.
4. Check the "Allow Original Image(s) Download" box.
5. When ready, click on "Save".
