

## **Doteasy KB**

### **What email features are included in the Unlimited Hosting Plan?**

The Doteasy Unlimited Hosting Plan gives you a total of 10GB email storage quota. You can setup up unlimited email accounts providing the total email storage usage does not exceed 10GB.

You can distribute the 10GB email storage quota evenly amongst 100 accounts so that each will have 100MB, or you can assign different email storage quotas for individual accounts. This provides maximum flexibility.

All Unlimited Hosting email accounts come with Web/POP/IMAP mail accessibility, auto-responder and mail forwarding capabilities. In addition, you also get unlimited email alias accounts.
