

Doteasy KB

What currency are Doteasy fees charged in?

All Doteasy web hosting and domain registration fees, except for .CA domain fees, are listed in US Dollars. You can choose to be charged in either US Dollars or Canadian Dollars. If you're paying with an American Express card or if you choose to be charged in Canadian Dollars for items that are listed in US Dollars, we will need to convert your payment into Canadian Dollars first using our preset exchange rate before we process the charge onto your credit card.

All .CA domain fees are listed and processed in Canadian dollars.
